CPSI CENTERSTRIP

CPSI CENTERSTRIP is manufactured in 10' sections from 24 gauge steel. CPSI Centerstrip has 7/8" knock-out holes on 6" centers. Our centerstrip does not require any additional fastening or locking devices. It is available in sizes; 4 1/2", 5 1/2", 6 1/2", 7 1/2", 8 1/2", and 9 1/2".

FEATURES :

Knife edge minimizes spalling and prevents surface voids.

Stakes pass thru the Key which eliminates the need for securing the bottom edge with tie wire or clips.

Stakes are used for alignment, eliminating splice plates.

Stakes are 3/4" wide and 15" long.
